

Figure 1

The figure shows a grid of horizontal bars. The vertical axis (y-axis) is labeled "Number of Groups" and has tick marks at 0, 2, 4, 6, and 8. The horizontal axis (x-axis) is labeled "Number of Subjects per Group" and has tick marks at 0, 10, 20, 30, 40, 50, and 60. There are four rows of bars, corresponding to group counts of 2, 4, 6, and 8. Each row contains multiple bars of varying lengths, representing different numbers of subjects per group (n). For example, in the top row (g=2), there are bars for n values ranging from approximately 10 to 60. In the bottom row (g=8), there are bars for n values ranging from approximately 10 to 30.
